SKILLS

Web development

HTML, CSS, JavaScript, ReactJS, Express, MongoDB
Git, Saas

Data analisys

Excel, Python, Tableau

PROJECTS

EXPENSE TRACKER

This is a web application to track incomes and expenses. I built this app using ReactJS for the front-end and Redux for the state management. To store all the data, I linked the application to a MongoDB database using Express.

LEARNING MANAGEMENT SYSTEM

This website it's made to recreate an educational platform. Here I used ReactJS as the main framework, with this I made use of react-router-dom to display the views and framer-motion to make some animations.

MOVIE THEATER

This application is made with ReactJS. Here I displayed a selection of movies by category using The Movie Database API (TMDb API).

EDUCATION

Universidad Nacional del Callao
Economics

OTRAS ACTIVIDADES

I have been a missionary volunteer for two years. I led groups of 6-8 volunteers, conducted weekly training meetings, followed up on goals, and created weekly progress reports. Also, I planned, organized, and taught workshops on goal setting, relationship building, and leadership.

LANGUAGES

Inglés: Proficient
Spanish: Native
